OUR HISTORY

Founded on our agricultural land of aromatic and medicinal plants in the South of France, our mission is to help everyone live better by connecting people to the planet.

In 1975, the laboratory began manufacturing cosmetics and household products with the idea of making locally and organically farmed products accessible to as many people as possible.

Inspired by Laboratoire Gravier's biological and scientific heritage, our teams do their utmost to uphold the laboratory's mission.

Our R&D experts develop products in accordance with rigorous internal specifications, the conformity of which is guaranteed by our quality and regulatory departments. The resulting products meet the highest quality standards expected by our customers.

OUR KNOW-HOW

OUR COMMITMENTS

Located within a NATURA 2000 zone in LUSSAN (a village of southern France close to the famous city of Avignon) since 2011, we use our know-how to promote individual well-being while respecting nature.

With 48 years of experience and innovation, the laboratory's commitment remains intact: organic manufacturing is a philosophy, and ecology drives progress.

“ *Live better by connecting
people to the Earth* ”

cosmonaturel

NATURALLY COMMITTED

AUTHENTICITY

Committed to organic agriculture, Laboratoire Gravier shares its local botanical heritage through certified organic cosmetic products that promote individual well-being while respecting nature.

WELL-BEING

Our sensory products have fragrances that evoke the beauty of Nature for a unique moment of relaxation and a return to oneself.

GENEROSITY

Concentrated in effective plant-based active ingredients, our products meet the hygiene and care needs of the entire family.

HOW TO USE A DETANGLING BALM

- Rinse out shampoo, then apply the detangling balm to the towel-dried lengths of your hair. If your hair is too wet, the product will not work to maximum effect!
- Leave the product on for at least 5 minutes, using your fingers or a comb to detangle hair.
- Rinse hair and dry as usual.

HOW TO REMOVE A STAIN

It is important to treat the stain before laundering. Otherwise, the stain may adhere to the fabric fibres.

To treat:

- Moisten the affected area and apply a little detergent.
- Let sit for 30 minutes to 1 hour and then rub in lightly.
- Run your washing machine in economy mode at 30°C and admire the result!
